

BULL SALE
November 23RD 2024 • 1PM (CST)

At the Ranch - Solen, ND

Selling 32 Coming 2 year old bulls

Featuring these sons of
Badger

Welcome to our 7th Annual Bull Sale...

What a great year it has been. An open winter followed by decent moisture for most of the region. A great market for all classes of cattle, what a good time to be ranching! There will always be some challenges, but for those who stuck with it and persevered, we are enjoying some great times. We are so grateful to be a ranching. It is an honor for us to be in production agriculture and to do our part to feed the world.

At this time, I want to say thank you to everyone who has helped us get to where we are today. Raising and marketing bulls has been and continues to be a rewarding lifestyle, and we would not be able to be having our 7th annual sale without the help of everyone, from our families, neighbors, friends, local businesses, loyal customers, and most of all to God who has blessed us so abundantly. Thank you to our Customers who believe and trust in our program. We are so grateful for those who have chosen to buy YellowTop bulls and for those who show interest in our program. It means a lot to us, and the best is yet to come. We strive to put our customers first, and help them achieve their breeding goals. We are excited about the direction our program is going with our current line-up of genetics.

I believe that we are in the best years the beef market has ever seen. Beef demand has been fantastic and has held through some of the most challenging times in recent years. The nation's cow herd has not shown signs of expansion so that may prolong the good prices we are seeing. The fundamentals of supply and demand are in the producer's favor. Marketing experts and optimists alike have stated that we are on track to see great prices for a while!

Thank you for taking the day to spend with us and seeing the great offering of bulls that we have this year. Please feel free to reach out to us if you have any questions on the bulls. We would love to visit with you on how we can help with finding the right bull for your operation. May God Bless you and your families and May God Bless America!

Sincerely

Arth Mull

Sale Day Details

November 23rd, 1:00pm (CST) at the Ranch

Lodging

Comfort Inn - Mandan, ND. 701-751-7484
A block of rooms have been reserved at the Comfort Inn & Suites in Mandan for Friday and Saturday. Please mention YellowTop Angus when you call to get a reduced rate.

Lunch

Please join us for a complimentary lunch before the sale starting around 11:30.

Liability

YellowTop Angus assumes no liability for accidents or injuries that occur on sale day.

End of Sale Bull Discount Drawing

All Lot #'s will be put into a hat and 2 will be drawn out. The buyer of the 1st lot # drawn will get 5% off that lot, and the 2nd lot # drawn will get 10% off.

Lots 28-32 are non-registered Banker bulls that match the quality confirmation and disposition of the registered bulls. They are ratioed along with all our bulls for weaning and yearling weights. We feel these are solid bulls that will add quality and maternal traits to any herd.

Cattle Viewing

Anytime before the sale by appointment and sale day.

Sale Terms and Conditions

Payment is due on sale day. Bulls will not be released until payment is made.

Herd Health

The bulls have been on a full vaccination and a deworming program. We guarantee these bulls to be reproductively sound.

Delivery

Immediately after the sale we are offering free delivery on all bulls sold within a 300 mile radius. Receive a \$50 discount per bull if you haul your own on sale day.

Retained Interest

We are retaining 1/2 interest on a few bulls in this sale offering. Some of these bulls we may want to turn out and use in our herd in the future. They will go through the sale, and the new owner will take possession of the bull and get to use them for their own herd. Around August 10th at our expense, and at your convenience, we would work with you on getting the bull back to use in our herd. YellowTop Angus will cover all expenses for getting and delivering these bulls to and from your operation.

Any questions that you may have regarding this please let us know and we can discuss before the sale. YellowTop Angus is retaining 1/3 interest in every bull unless noted in foot notes.

SALE ORDER IS CATALOG ORDER

PLEASE BRING SALE CATALOG WITH YOU TO THE SALE.

Sale Day Location

YellowTop Angus Ranch 1873 63rd St • Solen, ND 58570

From Mandan

South on Hwy 6, 19 miles to County Road 135, turn East at YellowTop Bull Sale Sign.

Go 3 miles East, 1 mile South, 1 mile East, 1 mile South, 1 mile East, 1 mile South, turn right on 63 rd St. head west and we are the first place.

From Solen

Head North on Rice Street and go North about 8 miles to 63 rd Street. Turn Left, head west and we are the first place.

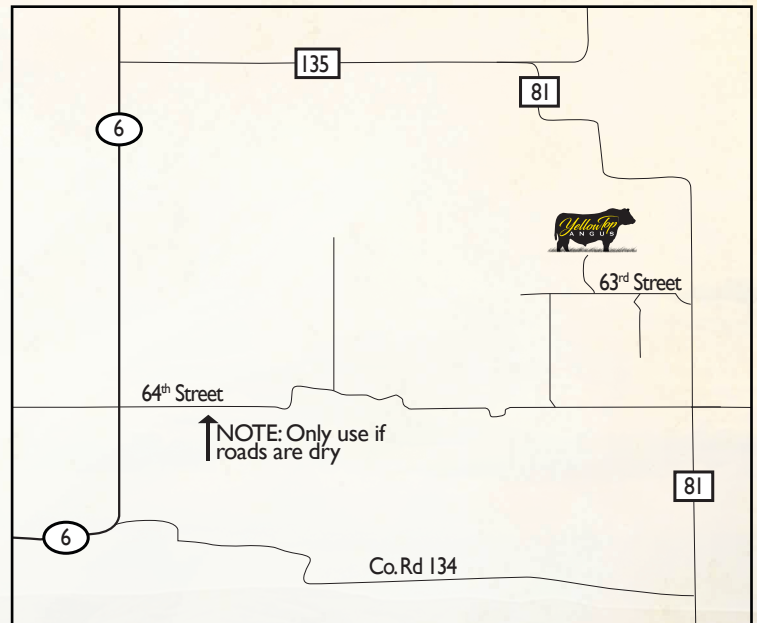

From Flasher

East on Hwy 21 to Hwy 6 North. Right at the curve, take County Road 134 East at Mile Marker 43.

Stay on main road around 7 miles to County Road 81 (you will come to a T in the road).

Turn Left and go North 5 miles to 63 rd Street.

Turn Left, head west and we are the first place.

YellowTop INDEXES

Again this year we are implementing our Indexes for Calving Ease, Performance and Maternal.

With 1 being low and 10 as good as it gets.

Our calving ease recommendations are as follows:

1-4 = to be used on cows only

5-6 = cows or larger framed heifers that will get checked

7-10 = cows and all heifers

After working on the YellowTop Indexes, and getting customers input over the years on EPD's and weights, we decided to come up with the most comprehensive tool we could. This index looks at everything, even the traits that not many others are evaluating. We call these the Cowboy's EPD's. Traits under the Maternal Index look at how the cow acts at calving to how quickly the calf is up and going are weighed into the score. For the Calving Ease Index we look at history of the Cow Families and their ratios and the physical make up of the bulls head, shoulder and size of hoof. For the Performance Index we look at environmental and weather factors, available forage and quality of forage and water as well as carcass info, just to name a few. I will be happy to explain the entire scoring system to you if you would like further information on it.

Thanks

Keith Mull

BULL DEVELOPMENT AT *YellowTop* ANGUS

At YellowTop Angus we feel that the best way to develop herd bulls is slowly, and with low stress. We choose to calve in May and June while the cows are out on grass. We feel calving at this time is the least stressful for the cows and calves, and those who work with them. We enjoy checking the calving cows on horseback. The calves are weighed with an electronic scale and tagged once a day. We feel there is less sickness, less disease, and overall healthier calves by calving later. We brand and work the calves when they are around a month old, and get to be developed on grass for the summer. They receive their booster shots and are evaluated for quality and disposition when we preg check the cows in October. We will determine our weaning date based on the weather and grazing conditions.

At weaning time, the bulls were fed a bull developer pellet and grass hay. We hand feed the calves and work them on foot, with a dog, and horseback to get them quieted down. We also ran the bulls through our alley and chute to get them used to the chute without having to catch them. We feel that working with the calves takes their mind off weaning. After weaning, the bulls also got another round of vaccines and pour on. Come wintertime, the bulls will continue to be fed the bull developer pellet and get free choice hay. The developer pellet is safe and has low starch levels to ensure sound development and to enhance longevity in our bulls. Come summertime the bulls were split and summered into pastures totaling around 300 acres. The bulls were supplemented with salt, loose mineral, and some cake. In September we brought the bulls home and ran them in our pastures around the place here and offered grass alfalfa hay and fed them the bull developer pellet.

We feel that the less confinement, and the less corn a breeding bull has, the better chance they will have to stay in your herd for a long time. We feel that we are doing the best we possibly can to offer you sound bulls with good dispositions and developed in a way to make your investment last as long as it can. In doing so, we hope these bulls will sire you great calves for years to come. There are so many factors that we cannot control, on how long the bulls last, but the ones we can control we are striving to implement into our program.

Badger | *Reference Sire*

BADGER Very few bulls that I have ever seen can compare to this amazing bull. Badger is a true herd bull. He exhibits authentic Angus breed character. His overall herd bull presence is impressive. Badger is good-footed, extremely athletic and moves out very well. He has tremendous muscle and above average length of body with extra rib shape and capacity. This bull is an amazing breeder who will find a cow in heat, breed her and move on and she will settle with one jump. The last 4 years he has run with good sized groups of cows and has had very few opens. Badger also has a docile disposition and has been loaded in the pasture at the end of breeding season in a trailer with no panels. His Dam is Isabel Y69 an Angus legend and one of the most proven and productive cows in the entire breed. She has son's in many of the AI companies line ups. His now deceased sire No Doubt has been an outstanding sire for performance and carcass merit. He sires cattle with exceptional structure and muscling. His calves have added performance and weigh up in a great moderate sized package. Badger is a complete outcross bull for our program. He is the most consistent sire we have ever used. This spring we calved out his first daughters and I was very impressed. They are the kind of females I like. They are feminine and have nice udders with great attachment and teats that are just the right size. They stay right with their calves and have strong mothering traits. We are really excited to offer another set of sons for sale in November. He has gained a lot of popularity this past year and many top Angus operations around the country and in Canada are using him.

Revolver | *Reference Sire*

REVOLVER was the high selling bull in our first sale. He is an exceptional individual. He has tremendous length, depth, and muscling. To me his best trait is his disposition. You can walk up to him anywhere and scratch him. I have loaded him in the pasture by myself with just a trailer and he hopped right in. He has proven himself as a calving ease bull and has been used on AI projects over the past couple of years. The calves out of those heifers have been excellent and have been the heaviest calves in those groups. He sires great length in his offspring, and they have a nice look. We have now calved out the third group of heifers out of him and they are great young cows. Maternally they are great mothers and have nice bags. His offspring should add longevity to your herd with his mother lasting here until she was 12 years old. The cow family he is out of has been exceptional.

BANKER is a bull we sampled as a new calving ease bull who also has tremendous maternal traits. He is out of the famous Donna cow family from Montana. He sired true calving ease calves, and we did not assist a single heifer that was bred to him. The calves started out extra light and grew until weaning and then really picked up and have developed into nice moderate sized heifer bulls that have some muscle shape and a great look. We are really excited about the females out of him. They are very fancy and have a great look.

ISIDORE is a bull we raised. He was born on St. Isadore day. He is out of a cow we purchased from Montana. His mother stayed in production here for 12 straight years.. Isadore was her last calf, and she saved her best for last. Her udder was the best of any of our aged cows and was a great mother who always knew where her calves were. Isadore is a very attractive well made individual. As a calf, I could go up to him in the pasture and he would lick my hand. He has a very strong topline and is very complete. He is an exceptional breeder and has covered large groups of cows by himself. His sons have also been active breeders and have held up well. We calved out his first daughters this spring and they are very nice moderate sized females who were great mothers. They have nice tidy udders and have a nice Angus look too them.

Lot 4 has amazing thickness and depth of body. YT Badger 3406 is out of our best Roughrider cow who this year became a donor cow for us. She made it because of her great udder, good feet and has had 7 great calves in a row. She had a Badger son last year in the sale that was a highlight, and has a really good Badger son at side. She has stuck AI again this year to Badger. Not to mention she exhibits amazing mothering traits and a good disposition. One of her daughters also became a donor cow for us. This Badger son is her best calf to date. Lot 4's disposition may be his best trait and is very calm to be around. **We are retaining half interest and half possession.**

Lot 17 starts off the next Badger group in the sale. YT Badger 3426 has the look of a herd bull with great muscle, extra depth of body and has a class Angus head. He is very masculine and has a nice crest on his neck. YT Badger 3426 is the best calf that his Roughrider dam has had to date. His mother has another really nice Badger bull calf at side and she stuck AI again this year to Badger. He excelled for both weaning and yearling weight performance. Lot 17 is tied for the 3rd best yearling weight ratio of the bulls in the sale.
