

BULL SALE

November 22ND 2025 • 1PM (CST)

At the Ranch - Solen, ND

Selling 35 Coming 2 year old bulls

Welcome to our 8th Annual Bull Sale...

Dear friends,

This may turn out to be the most amazing year in the history of ranching. We had a mild open winter and have an absolutely amazing cattle market. Couple that with adequate moisture in most parts of this region with great grass and a lot of available winter feed. We all know things won't stay like this forever so please take some time and truly enjoy this moment in history. We thank the Lord for this amazing year and his many blessings. To make it even better Michelle and I became grandparents! What an incredible blessing June Ann is to our family. Other fantastic news is Cecilia and Kyle got engaged. They will be getting married next summer!

It is my honor to present to you this set of bulls. I feel it is the most uniform set that we have ever offered. The Badger sons have been doing an amazing job around the country, and it is exciting to offer you our largest set for sale this year. We have a broad selection of heifer bulls including Magnum, Honcho, and the next generation of Badger offspring offering another shot of maternal traits in a lighter birth weight package for heifers. I feel the quality runs all the way through the sale.

To enhance our YellowTop indexes we have added our IN-HERD EPD's. These are compiled with similar criteria as other EPD's but are put together also incorporating our YellowTop indexes. I feel this will give you a very accurate prediction of how our bulls will perform.

YellowTop sired calves have drawn the attention of buyers and feeders. I have had interest in helping them source calves both through the sale barns as well as privately. I look forward to adding value for our customers through these relationships. We are so grateful for everyone who has supported us and I want to do my part to help you as well.

Thank you for your loyalty to our family and our program. We truly value these relationships. May God bless you and your families! Peace be with you!

YellowTop Angus

Anth Mall

We are excited to announce the engagement of our daughter Cecilia to Kyle Kostecky. He is a wonderful young man and we are excited to have him join our family. We look forward to celebrating their wedding in July 2026.

Sale Day Details

November 22nd, 1:00pm (CST) at the Ranch

Lodging

Comfort Inn - Mandan, ND. 701-751-7484
A block of rooms have been reserved at the Comfort Inn & Suites in Mandan for Friday and Saturday. Please mention YellowTop Angus when you call to get a reduced rate.

Lunch

Please join us for a complimentary lunch before the sale starting around 11:30.

Liability

YellowTop Angus assumes no liability for accidents or injuries that occur on sale day.

End of Sale Bull Discount Drawing

All Lot #'s will be put into a hat and 2 will be drawn out. The buyer of the 1st lot # drawn will get 5% off that lot, and the 2nd lot # drawn will get 10% off.

Cattle Viewing

Anytime before the sale by appointment and sale day.

Sale Terms and Conditions

Payment is due on sale day. Bulls will not be released until payment is made.

Herd Health

The bulls have been on a full vaccination and a deworming program. We guarantee these bulls to be reproductively sound.

Delivery

Immediately after the sale we are offering free delivery on all bulls sold within a 300 mile radius. Receive a \$50 discount per bull if you haul your own on sale day.

Retained Interest

We are retaining 1/2 interest on a few bulls in this sale offering. Some of these bulls we may want to turn out and use in our herd in the future. They will go through the sale, and the new owner will take possession of the bull and get to use them for their own herd. Around August 10th at our expense, and at your convenience, we would work with you on getting the bull back to use in our herd. YellowTop Angus will cover all expenses for getting and delivering these bulls to and from your operation.

Any questions that you may have regarding this please let us know and we can discuss before the sale. YellowTop Angus is retaining 1/3 interest in every bull unless noted in foot notes.

SALE ORDER IS CATALOG ORDER

PLEASE BRING SALE CATALOG WITH YOU TO THE SALE.

In-Herd EPD's

To enhance our YellowTop indexes we have added our IN-HERD EPD's. These are compiled with similar criteria as other EPD's but are put together also incorporating our YellowTop indexes. I feel this will give you a very accurate prediction of how our bulls will perform.

YellowTop Angus Ranch 1873 63rd St • Solen, ND 58570

From Mandan

South on Hwy 6, 19 miles to County Road 135, turn East at YellowTop Bull Sale Sign.
Go 3 miles East, 1 mile South, 1 mile East, 1 mile South,
1 mile East, 1 mile South, turn right on 63 rd St. head west and we are the first place.

From Solen

Head North on Rice Street and go North about 8 miles to 63 rd Street. Turn Left, head west and we are the first place.

From Flasher

East on Hwy 21 to Hwy 6 North. Right at the curve, take County Road 134 East at Mile Marker 43.
Stay on main road around 7 miles to County Road 81 (you will come to a T in the road).
Turn Left and go North 5 miles to 63 rd Street.
Turn Left, head west and we are the first place.

BULL DEVELOPMENT AT *YellowTop* ANGUS

At YellowTop Angus we feel that the best way to develop herd bulls is slowly, and with low stress. We choose to calve in May and June while the cows are out on grass. We feel calving at this time is the least stressful for the cows and calves, and those who work with them. We enjoy checking the calving cows on horseback. The calves are weighed with an electronic scale and tagged once a day. We feel there is less sickness, less disease, and overall healthier calves by calving later. We brand and work the calves when they are around a month old, and get to be developed on grass for the summer. They receive their booster shots and are evaluated for quality and disposition when we preg check the cows in October. We will determine our weaning date based on the weather and grazing conditions.

At weaning time, the bulls were fed a bull developer pellet and grass alfalfa hay. We hand feed the calves and work them on foot, with a dog, and horseback to get them quieted down. We also ran the bulls through our alley and chute to get them used to the chute without having to catch them. We feel that working with the calves takes their mind off weaning. After weaning, the bulls also got another round of vaccines and pour on. Come wintertime, the bulls will continue to be fed the bull developer pellet and get free choice hay. The developer pellet is safe and has low starch levels to ensure sound development and to enhance longevity in our bulls. Come summertime the bulls were split and summered into pastures totaling around 400 acres. The bulls were supplemented with salt, loose mineral, and some cake. In September we brought the bulls home and ran them in our pastures around the place here and offered grass alfalfa hay and fed them the bull developer pellet.

We feel that the less confinement, and the less corn a breeding bull has, the better chance they will have to stay in your herd for a long time. We feel that we are doing the best we possibly can to offer you sound bulls with good dispositions and developed in a way to make your investment last as long as it can. In doing so, we hope these bulls will sire you great calves for years to come. There are so many factors that we cannot control, on how long the bulls last, but the ones we can control we are striving to implement into our program.

YellowTop INDEXES & IN-HERD EPD'S

Again this year we are implementing our Indexes for Calving Ease, Performance and Maternal.

With 1 being low and 10 as good as it gets.

Our calving ease recommendations are as follows:

1-4 = to be used on cows only

5-6 = cows or larger framed heifers that will get checked

7-10 = cows and all heifers

After working on the YellowTop Indexes, and getting customers input over the years on EPD's and weights, we decided to come up with the most comprehensive tool we could. This index looks at everything, even the traits that not many others are evaluating. We call these the Cowboy's EPD's. Traits under the Maternal Index look at how the cow acts at calving to how quickly the calf is up and going are weighed into the score. For the Calving Ease Index we look at history of the Cow Families and their ratios and the physical make up of the bulls head, shoulder and size of hoof. For the Performance Index we look at environmental and weather factors, available forage and quality of forage and water as well as carcass info, just to name a few. I will be happy to explain the entire scoring system to you if you would like further information on it.

To enhance our YellowTop indexes we have added our IN-HERD EPD's. These are compiled with similar criteria as other EPD's but are put together also incorporating our YellowTop indexes. I feel this will give you a very accurate prediction of how our bulls will perform.

Thanks

Badger | *Reference Sire*

Birth Date: 05/12/2018 | Reg #: 19478648

Baldrige Isabel T935

BADGER – Very few bulls that I have ever seen can compare to this amazing bull. Badger is a true herd bull. He exhibits authentic Angus breed character. His overall herd bull presence is impressive. Badger is good-footed, extremely athletic and moves out very well. He has tremendous muscle and above average length of body with extra rib shape and capacity. This bull is an amazing breeder who will find a cow in heat, breed her and move on and she will settle with one jump. The last 5 years he has run with good sized groups of cows and has had very few opens. Badger also has a docile disposition and has been loaded in the pasture at the end of breeding season in a trailer with no panels. His Dam is Isabel Y69 an Angus legend and one of the most proven and productive cows in the entire breed. She has son's in many of the AI companies line ups. His now deceased sire No Doubt has been an outstanding sire for performance and carcass merit. He sires cattle with exceptional structure and muscling. His calves have added performance and weigh up in a great moderate sized package. Badger is a complete outcross bull for our program. He is the most consistent sire we have ever used. We are really excited to offer another set of sons for sale in November. He has gained a lot of popularity this past year and many top Angus operations around the country and in Canada are using him.

Honcho | *Reference Sire*

Birth Date: 05/14/2020 | Reg #: 20109138

YT Madame Pride 8405

YT Madame Pride 0445

HONCHO is a bull we have used here for a few years and has not disappointed us. He has been a unique outcross calving ease bull for us here. We have calved out his daughters, and they are amazing. They have been breeding back very well and are getting better with age. They have a great brood cow look, are moderate in mature size and have nice level udders with very nice teat size. Maternally they have all the traits we are looking for. Honcho adds a classic Angus look to his offspring and good depth of body and muscle. The Honcho calves at birth have a lot of vigor and have grown well. Since he is deceased and there is very limited semen, we have used some sons of his out of our top cows to continue on with that line.

Magnum | *Reference Sire*

Birth Date: 02/20/2014 | Reg #: 20159546

 O C C Dixie Erica 943D

Duff BI 619 LadyPop 1017 Duff Basic Instinct 6501
 Duff NL B351 Lady Pop 619

MAGNUM is a bull I really liked when I saw him as a yearling. He was very correct on his feet and legs and had a great disposition. He is a real outlier with a light birth weight and amazing performance for weaning and yearling. He is backed by generations of great females. His first daughters are reported to have level udders and ideal teat size. We are looking forward to calving his first daughters out of him next year. There will be more bulls out of him next year in our sale. The Magnum calves are looking great out of our first calf heifers.

Schearbrook Shoshone | *Reference Sire*

Birth Date: 02/07/1971 | Reg #: 7011424

Beaufort of Wye Fabron of Wye
 Battista of Wye
 Shoshone Blackbird Shoshonian Bardoliermere
 Haystack Blackbird 102

SCHEARBROOK SHOSHONE is the legendary Angus bull from 1971. Back then he was known in the Angus breed as the maternal sire. He had around 4,000 daughters in 1,000 herds across the nation. In looking into using this sire I was told by breeders that the daughters out of him were fantastic, and some said they were the best females they ever had. I have been really happy with the calves so far and I am really excited to calve out his daughter's next spring. We AI'D 9 cows to him and got 7 calves 3 bulls and 4 heifers. I kept one straw of semen to use for flushing and last year that one straw was so potent we were able to flush 6 cows to him and got 18 live calves. We will have some more bulls in our offering next year.

Lot 22 is the leadoff Honcho bull. He is out of a highly proven great 9-year-old cow. She has 6 calves at 105 for weaning. The Honcho's continue to impress me on both the female and bull side. 4400 was impressive at birth and has continued to excel for weaning and yearling performance. Suitable for larger heifers.

"Strive for Greatness in the things that matter, the world already has enough mediocrity."

Lot 23 is a complete well-made individual. He has extra depth of body and good natural thickness. His young, very productive dam has very strong maternal traits. This year she calved in the cold rain and strong wind and picked the best spot to calve in the whole pasture and kept her calf protected. Suitable for heifers.

Around the Ranch

THANK YOU

May the road rise to meet you.
May the wind be always at your back.
May the sun shine warm upon your face.
And rains fall soft upon your fields.
And until we meet again,
May God hold you in the palm of his hand.
