

BULL SALE

November 21ST 2026 • 1PM (CST)

At the Ranch - Solen, ND

Selling 45 Coming 2 year old bulls

Welcome friends to our 9th Annual Bull Sale...

Thank you for spending the day with us. It is an absolute joy to welcome both new and past customers, and dear friends to the event we spend the entire year preparing for. We truly value your relationships and are so grateful to you all.

We are so truly blessed and grateful to be able to do what we enjoy. As we get to do what we love, we also have had several changes in our family. Cecilia and Kyle got married in July and had a beautiful wedding. Cody and Andrea shared with us they are expecting our 2nd grandchild in mid-November. Clayton and Madison got engaged and we are so excited to be planning a spring wedding. Michelle resigned from her full-time job in Mandan only to come home and put in twice the hours for less pay. In all seriousness though, we have been working towards having Michelle come back home to work alongside me, and I am so thankful that it actually became a reality. Lillian continues to help us out when she is not in school and keeps us on our toes. God is so good and we are so thankful.

This years offering is one I am really proud of. These bulls have done really well and are a solid group from top to bottom. We have a large group of Badger sons and also a few grandsons. Our next offering is a unique one. We flushed several donor cows to a bull from 1971 called Schearbrook Shoshone. He is famous for being a female marker and one of the most maternal bulls in the Angus breed. Since he is so old, his EPD's are low but the cattle out preformed what the EPD's read. We also have another solid set of Magnum and Isidore sons to finish out this year's offering.

YellowTop sired calves have drawn the attention of buyers and feeders. I have had interest in helping them source calves both through the sale barns as well as privately. I look forward to adding value for our customers through these relationships. We are so grateful for everyone who has supported us and I want to do my part to help you as well.

Thank you for your loyalty to our family and the YellowTop Angus program. Please feel free to reach out to us on any questions you have about the bulls. We would like to visit with you about your goals that you would like to incorporate into your own ranch. We strive to put our customers first. May God bless you and your families! Peace be with you!

Sincerely,

YellowTop Angus

Anth Muhl

We are excited to announce the engagement of our son Clayton to Madison Becker. Maddie is a beautiful addition to our family, and we feel so blessed. We look forward to celebrating their wedding in April 2027.

Sale Day Details

November 21st, 1:00pm (CST) at the Ranch

Lodging

Comfort Inn - Mandan, ND. 701-751-7484

A block of rooms have been reserved at the Comfort Inn & Suites in Mandan for Friday and Saturday. Please mention YellowTop Angus when you call to get a reduced rate.

Lunch

Please join us for a complimentary lunch before the sale starting around 11:30am.

Liability

YellowTop Angus assumes no liability for accidents or injuries that occur on sale day.

End of Sale Bull Discount Drawing

All Lot #'s will be put into a hat and 2 will be drawn out. The buyer of the 1st lot # drawn will get 5% off that lot, and the 2nd lot # drawn will get 10% off.

Cattle Viewing

Anytime before the sale by appointment and sale day.

Sale Terms and Conditions

Payment is due on sale day. Bulls will not be released until payment is made.

Herd Health

The bulls have been on a full vaccination and a deworming program. We guarantee these bulls to be reproductively sound.

Delivery

Immediately after the sale we are offering free delivery on all bulls sold within a 300 mile radius. Receive a \$50 discount per bull if you haul your own on sale day.

Retained Interest

We are retaining 1/2 interest on a few bulls in this sale offering. Some of these bulls we may want to turn out and use in our herd in the future. They will go through the sale, and the new owner will take possession of the bull and get to use them for their own herd. Around August 1st at our expense, and at your convenience, we would work with you on getting the bull back to use in our herd. YellowTop Angus will cover all expenses for getting and delivering these bulls to and from your operation.

Any questions that you may have regarding this please let us know and we can discuss before the sale. YellowTop Angus is retaining 1/3 interest in every bull unless noted in foot notes.

SALE ORDER IS CATALOG ORDER

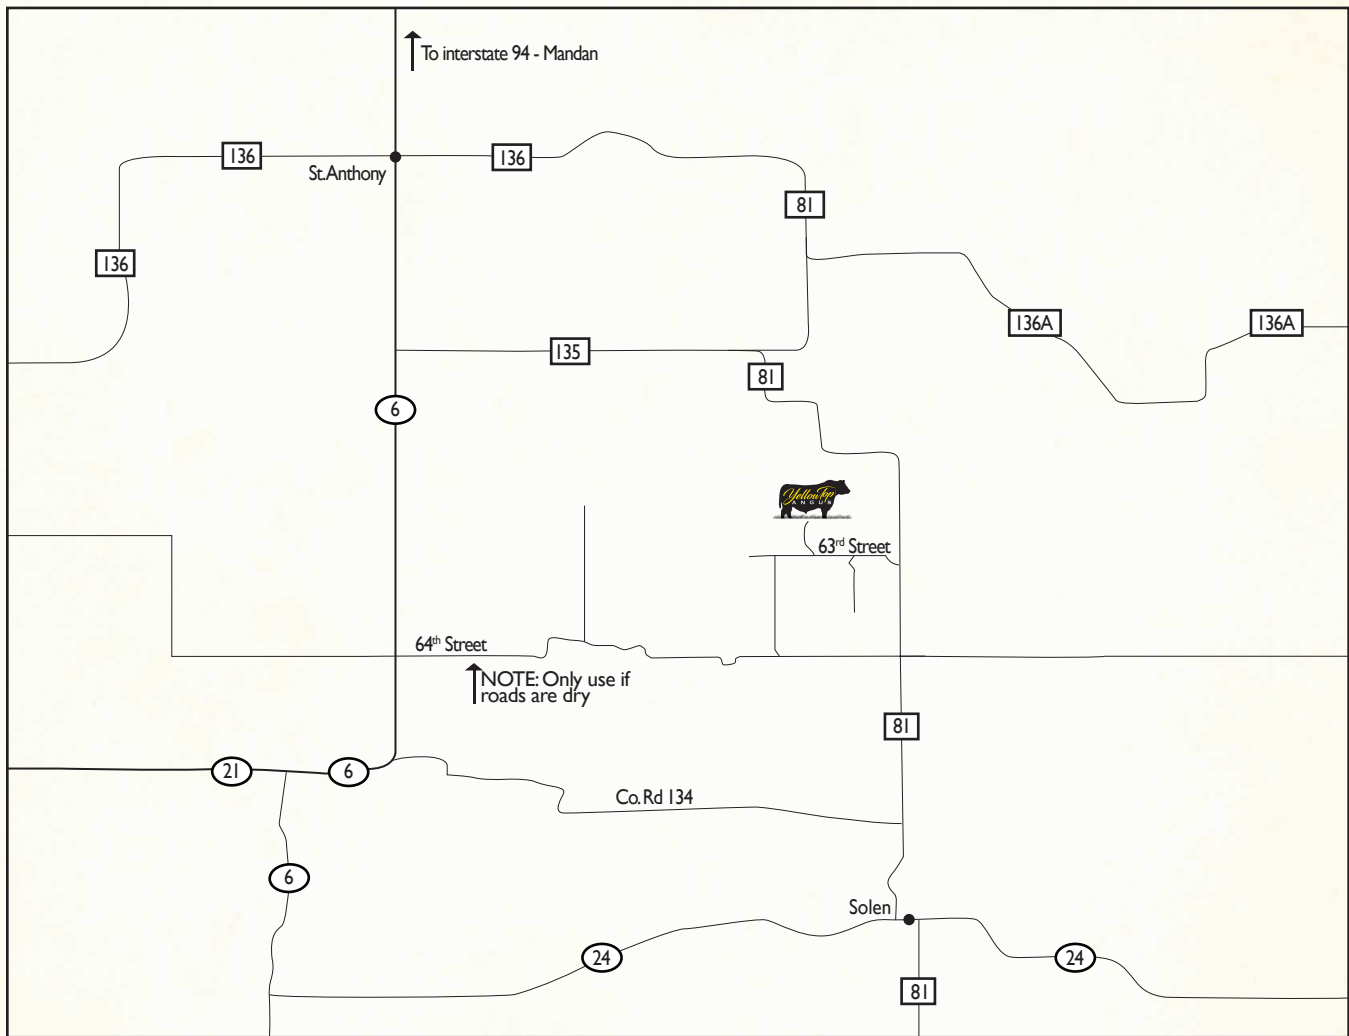

PLEASE BRING SALE CATALOG WITH YOU TO THE SALE.

In-Herd EPD's

To enhance our YellowTop indexes we have added our IN-HERD EPD's. These are compiled with similar criteria as other EPD's but are put together also incorporating our YellowTop indexes. I feel this will give you a very accurate prediction of how our bulls will perform.

Sale Day Location

YellowTop Angus Ranch 1873 63rd St • Solen, ND 58570

From Mandan

South on Hwy 6, 19 miles to County Road 135, turn East at YellowTop Bull Sale Sign.
Go 3 miles East, 1 mile South, 1 mile East, 1 mile South,
1 mile East, 1 mile South, turn right on 63 rd St. head west and we are the first place.

From Solen

Head North on Rice Street and go North about 8 miles to 63 rd Street. Turn Left, head west and we are the first place.

From Flasher

East on Hwy 21 to Hwy 6 North. Right at the curve, take County Road 134 East at Mile Marker 43.
Stay on main road around 7 miles to County Road 81 (you will come to a T in the road).
Turn Left and go North 5 miles to 63 rd Street.
Turn Left, head west and we are the first place.

BULL DEVELOPMENT AT *YellowTop* ANGUS

At YellowTop angus we feel that the best way to develop herd bulls is slowly, and with low stress. We choose to calve in May and June while the cows are out on grass. We feel calving at this time is the least stressful for the cows and calves, and those who work with them. We enjoy checking the calving cows on horseback. The calves are weighted with an electronic scale and tagged once a day. We feel there is less sickness, less disease, and overall healthier calves by calving later. We brand and work the calves when they are around a month old, and get to be developed on grass for the summer. They receive their booster shots and are evaluated for quality and disposition when we preg check the cows in October. We determine our weaning date based on the weather and grazing conditions.

At Weaning time, the bulls were fed a bull developer pellet and grass hay. We hand feed the calves and work them on foot, with a dog, and horseback to get them quieted down. We also ran the bulls through our alley and chute to get them used to the chute without having to catch them. We feel that working with the calves takes their mind off weaning. After weaning, the bulls also got another round of vaccines and pour on. Come wintertime, the bulls will continue to be fed the bull developer pellet and get free choice hay. The developer pellet is safe and has low starch levels to ensure sound development and to enhance longevity in our bulls. Come summertime the bulls were run around our place and with the conditions we had we continue to feed hay and supplement with pellets.

We feel that the less confinement, and the less corn a breeding bull has, the better chance they will have to stay in your herd for a long time. We feel that we are doing the best we possible can to offer you sound bulls with good dispositions and developed in a way to make your investment last as long as it can. In doing so, we hope these bulls with sire you great calves for years to come. There are so many factors that we cannot control, on how long the bulls last, but the ones we can control we are striving to implement into our program.

YellowTop INDEXES & IN-HERD EPD'S

Again this year we are implementing our Indexes for Calving Ease, Performance and Maternal.
With 1 being low and 10 as good as it gets.

Our calving ease recommendations are as follows:

1-4 = to be used on cows only

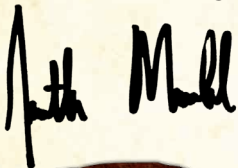

5-6 = cows or larger framed heifers that will get checked

7-10 = cows and all heifers

After working on the YellowTop Indexes, and getting customers input over the years on EPD's and weights, we decided to come up with the most comprehensive tool we could. This index looks at everything, even the traits that not many others are evaluating. We call these the Cowboy's EPD's. Traits under the Maternal Index look at how the cow acts at calving to how quickly the calf is up and going are weighed into the score. For the Calving Ease Index we look at history of the Cow Families and their ratios and the physical make up of the bulls head, shoulder and size of hoof. For the Performance Index we look at environmental and weather factors, available forage and quality of forage and water as well as carcass info, just to name a few. I will be happy to explain the entire scoring system to you if you would like further information on it.

To enhance our YellowTop indexes we have added our IN-HERD EPD's. These are compiled with similar criteria as other EPD's but are put together also incorporating our YellowTop indexes. I feel this will give you a very accurate prediction of how our bulls will perform.

Thanks

Badger | *Reference Sire*

BADGER – Very few bulls that I have ever seen can compare to this amazing bull. Badger is a true herd bull. He exhibits authentic Angus breed character. His overall herd bull presence is impressive. Badger is good-footed, extremely athletic and moves out very well. He has tremendous muscle and above average length of body with extra rib shape and capacity. This bull was an amazing breeder who will find a cow in heat, breed her and move on and she will settle with one jump. Badger also has a docile disposition and has been loaded in the pasture at the end of breeding season in a trailer with no panels. His Dam is Isabel Y69 an Angus legend and one of the most proven and productive cows in the entire breed. She has sons in many of the AI companies line ups. His now deceased sire No Doubt has been an outstanding sire for performance and carcass merit. He sires cattle with exceptional structure and muscling. His calves have added performance and weigh up in a great moderate sized package. Badger is a complete outcross bull for our program. He is the most consistent sire we have ever used. We are really excited to offer another set of sons for sale in November. He has gained worldwide popularity this past year and many top Angus operations around the country and in Canada are using him. Lots 19-27 are out of the next generation of Badger sons. Both of these Badger sons are bred with more maternal traits than their sire. These two bulls are the high sellers from the 2023 sale who were the first set of Badger sons to sell. We have calved out daughters out of these Badger sons and we really like them. Lots 19-27 have really turned out and we are excited about the next generation to continue on the Badger line.

Isidore | *Reference Sire*

Birth Date: 05/15/2019 | Reg #: 19812781

YT Roughrider 7412

Ellingson Roughrider 4202
YT Barbaramere Jet 2406

Ox Bow Willow 839

O C C Magnitude 805M
Ox Bow Willow 554

ISIDORE is a bull we raised. He was born on St. Isadore day. He is out of a cow we purchased from Montana. His mother stayed in production here for 12 straight years. Isidore was her last calf, and she saved her best for last. Her udder was the best of any of our aged cows and was a great mother who always knew where her calves were. Isidore is a very attractive well-made individual. As a calf, I could go up to him in the pasture and he would lick my hand. He has a very strong topline and is very complete. He is an exceptional breeder and has covered large groups of cows by himself. His sons have also been active breeders and have held up well. We calved out many of his daughters and they are very nice moderate sized females who are great mothers. They have nice tidy udders and have a nice Angus look too them. Isidore at 7 years of age is still in use and looks exceptional.

Magnum | *Reference Sire*

Birth Date: 03/20/2021 | Reg #: 20159546

Mead Primrose N198

S A V Emblynette 9023

LD Capitalist 316

S A V Emblynette 7505

MAGNUM is a bull I really liked when I saw him as a yearling. He was very correct on his feet and legs and had a great disposition. He is a real outlier with a light birth weight and amazing performance for weaning and yearling. He is backed by generations of great females. We calved out our first set of Magnum daughters and were very impressed. He continues to be a true calving ease bull for us and we chose to use several of his sons in our program this year breeding heifers.

Schearbrook Shoshone | *Reference Sire*

Birth Date: 02/07/1971 | Reg #: 7011424

Beaufort of Wye

Fabron of Wye

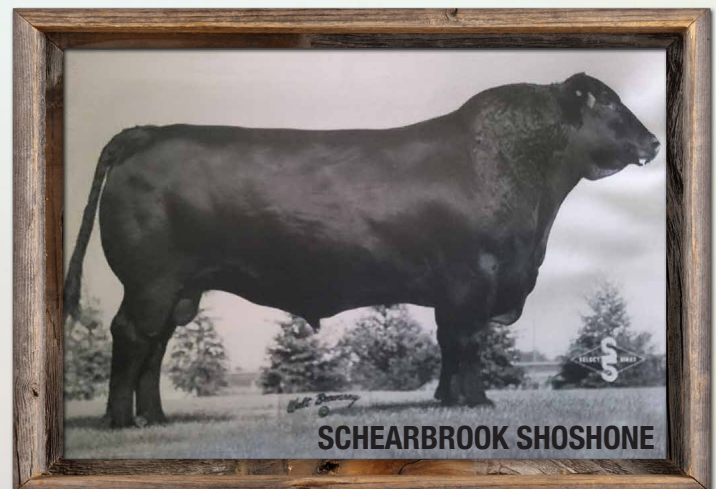

Battista of Wye

Shoshone Blackbird

Shoshonian Bardoliermere

Haystack Blackbird 102

SCHEARBROOK SHOSHONE is the legendary Angus bull from 1971. Back then he was known in the Angus breed as the maternal sire. He had around 4,000 daughters in 1,000 herds across the nation. In looking into using this sire I was told by breeders that the daughters out of him were fantastic, and some said they were the best females they ever had. We calved out the first set of daughters and they were great mothers, with good udders and had good fertility. After using him for 2 years we have learned that the Schearbrook Shoshone cattle are later maturing. Customers that bought sons last year said they have filled out and matured a lot this last year and were excellent breeding bulls. We feel going back and using some older genetics mated to our top females will produce a rare and unique female.

Lot 19 named Retro ties for the second lightest birthweight bull of the entire sale offering. He is out of Lillian's 4H show heifer that she went on to show as a Cow/Calf pair. This Badger grandson has an amazing disposition and is exceptional in every department. He was above average for weaning and yearling performance but has ratios of 100 because he was ratioed by himself. Retro's EPD's are from our In-Herd EPD's since he was registered by himself. Suitable for all heifers. **YellowTop Angus is retaining 1/2 interest and 1/2 procession.**

Lot 21 claims the award as the top maternal Badger influence bull of the sale. His 8-year-old Roughrider-Extra-Thunder-Final Answer dam is fantastic. She is beautiful fronted, moderate in size, has great feet and legs and a super udder. This bull is so gentle, he sometimes can be a little too curious and hard to move. 5456 posts above average weaning and yearling weight performance. This Badger grandson is a true calving ease bull. Suitable for all heifers.

Lot 25 is an amazing all-around bull. His Badger-Roughrider sire breeds the closest to Badger that we have used while adding an extra splash of maternal traits. This bull puts it all together from his look, his above average weaning and yearling weight performance, to his gentle disposition. 5469 is out of a productive, great revolver daughter.

Calving Ease: 4 Performance: 6 Maternal: 10

Lot 32 starts off the famous Schearbrook Shoshone sons. He is an embryo calf out of the mating of Schearbrook Shoshone and Honcho. 5482 is a long bodied, well-made bull who will add maternal strength to any program. His Honcho dam is also the mother of lot 26. He is very similar in type and kind to the rest of the Shoshone sons. They are all very consistent. Keep every female out of this bull.

Old School Genetics

Lots 32-41 are all embryos out of some of our top cows and the famous 1971 Schearbrook Shoshone. These bulls are in the process of being registered and do not have current EPD's. The numbers on Schearbrook Shoshone do not accurately represent their actual performance because the association discounts animals the older they are. We are using our In-Herd EPD's to give a better estimate of their EPD's.

Flush Brothers

Lots 33-35 are a superb set of flush brothers. Very similar in type and kind out of an outstanding Law Dog Dam whose natural calf is one of the top Badger sons, lot 5. Lots 33-35 will add maternal strength to any herd. Put all 3 in a pasture for an amazing set of replacement heifers.
